

GLOBAL COVID-19 RESPONSE

COVID-19 OUTBREAK

INTERNATIONAL MEDICAL CORPS RESPONDS

DECEMBER 31

WHO is notified of a cluster of cases of respiratory illness—now called COVID-19—in China.

MARCH 11

WHO declares the COVID-19 outbreak a pandemic. International Medical Corps is already **responding in 30 countries** and delivering PPE.

MARCH 20

Just days after a pandemic is declared, International Medical Corps launches its US response, **deploying an emergency medical field unit to Los Angeles**, already a US hotspot.

APRIL 6

International Medical Corps **deploys its first volunteer medical team** to New York, now the global epicenter. **72 volunteers give 8,145 hours** of support to stretched US hospitals over the next two months.

MAY 5

Global case numbers top 3.6 million. International Medical Corps has **distributed 2.6 million pieces of PPE** globally and is supporting **24 hospitals** in US hotspots.

JUNE 27

Reports indicate that 40% of US COVID-19 deaths are linked to nursing homes. International Medical Corps has been providing **training and PPE to 50+ US eldercare facilities** since May.

JULY 8

Global COVID-19 case numbers exceed 12 million, with the US surpassing 3 million cases. International Medical Corps has distributed **9.8 million pieces of PPE**, supported **538 health facilities**, and **screened 626,000 people** globally.

COMPREHENSIVE RESPONSE PLAN

Multi-pronged approach to ensure our teams and the facilities that they support in at-risk countries and regions are best able to prepare for and respond to the outbreak:

- ⚠ **Training** and Capacity Building to Protect Frontline Health Workers and Staff
- ⚠ **Prepositioning** and **Deploying** Medicines and Supplies, Including Personal Protective Equipment
- ⚠ Deployment of **Screening** and **Triage** Stations and Case Management
- ⚠ **Community** Outreach and Engagement
- ⚠ Mental Health and Psychosocial **Support**
- ⚠ **Epidemic** Response Teams

INTERNATIONAL MEDICAL CORPS RESPONDS: **UNITED STATES**

**24 hospitals and
51 long-term
eldercare facilities
supported** in the
most vulnerable
and underserved
communities,
with emergency
medical field units,
supplies, training
and surge staff

INTERNATIONAL MEDICAL CORPS RESPONDS

U.S. RESPONSE

SCREENED 8,604 PATIENTS
for COVID-19

SUPPORTED 83 FACILITIES
with emergency medical field units,
supplies, training and surge staff

**PROCURED AND DISTRIBUTED
7,346 PIECES** of medical
equipment and supplies

**DISTRIBUTED 1,887,330
PPE AND IPC ITEMS**

**TRAINED 1,932 FRONTLINE HEALTHCARE
PROFESSIONALS** on COVID-19 prevention
and control measures

DEPLOYED 72 VOLUNTEERS with 8,145
volunteer hours

ON THE FRONTLINES IN THE UNITED STATES

“

We have brought in emergency field shelters for them to use as surge capacity. We have brought in supplies and PPE. But, most important, we have brought in medical staff to help relieve those overburdened staff workers.”

Susan Mangiacaro

Team Lead, NYC

“

Nurses like me [were able] to come to the frontlines and help, and be the extra hands that they needed, to allow the nurses that are at those facilities, inundated and overwhelmed, to be better nurses, to take better care of these patients to get better outcomes.”

Amy Bowen

Volunteer nurse at Maimonides Medical Center,
Brooklyn, NY

“

I just want to thank International Medical Corps for stepping up and helping us. It really has allowed us to stay ahead of this.”

Dr. Oscar Casillas

MD at Martin Luther King, Jr.
Community Hospital, Los Angeles, CA

“

The patients are very appreciative. Their families are appreciative. And here the staff is appreciative because they literally were overworked. But we all pitched in and now we're trying to help the nurses with their job. That's the way it is in a disaster. You just help everyone.”

Dr. Michael Paterson

Volunteer MD at Flushing Hospital,
Queens, NY

TRAINING AND BUILDING CAPACITY IN THE FIGHT AGAINST **COVID-19**

COVID-19 Online Learning Series

Interactive webinar series for frontline health workers and partners

Long-Term Care Facilities

In-person training for clinical and non-clinical staff in long-term health facilities in LA County

Federally Qualified Health Clinics

Virtual training sessions on COVID-19 for staff of clinics that serve underinsured and uninsured communities

Integrating COVID- Specific Training

Training for local staff on IPC measures related to COVID-19 and the proper use of PPE

Sharing Best Practices

Bringing together hospital, EMS and response leaders to share best practices and learning across hotspots

INNOVATING TO PROVIDE ONGOING CARE

As part of our efforts to ensure that we can continue to provide ongoing access to healthcare for those we serve, we have:

Established several 24-hour hotlines to provide our teams with the latest COVID-19 updates, provide answers to questions and provide psychosocial support, all in response to the growing mental health needs created by COVID-19.

Provided smart phones, tablets and internet routers that enable remote patient monitoring, continuation of support for victims of gender-based violence and safe spaces for women and children in need.

Leveraged the reach of existing networks—including social media, WhatsApp groups, radio and TV, internet and phone trees—to distribute relevant, program-related messaging to staff and beneficiaries affected by quarantine. We also have implemented psychosocial peer-support groups.

TRAINING

PHILIPPINES

One of the first organizations to offer a training-of-trainers program for 44 frontline health personnel on infection prevention and control (IPC) measures; proper use of personal protective equipment (PPE); and other COVID-related topics.

DEPLOYING SUPPLIES

LIBYA

The first international NGO operating in-country to support the National Center for Disease Control by training and providing PPE to its rapid-response teams while also providing necessary supplies and PPE to hospitals and facilities throughout the country. To date, we have trained 1,369 people and distributed 534,254 PPE and IPC items.

SCREENING & TRIAGE

JORDAN

Established isolation areas within Azraq Refugee Camp, where we have provided COVID-19 screenings to 102,358 people and immediate, initial treatment to all suspected and confirmed cases.

EPIDEMIC RESPONSE TEAM

SOUTH SUDAN

Enhancing the critical-care and technical capacity of the Juba Infectious Disease Unit to improve case management and implement capacity building, operational and engineering controls.

INTERNATIONAL MEDICAL CORPS RESPONDS

GLOBAL RESPONSE

SCREENED 706,412 PATIENTS
for COVID-19

IDENTIFIED 16,164 PATIENTS
as suspected COVID-positive

SUPPORTED 561 FACILITIES
with COVID-related response,
supplies and training

**DISTRIBUTED 11,274,314
PPE AND IPC ITEMS**

**TRAINED 11,746 FRONTLINE HEALTHCARE
PROFESSIONALS** on COVID-19 prevention
and control measures

REACHED 1,175,943 PEOPLE with information
and education on COVID-19 prevention, good
hygiene and community wellness

SUPPORTED 84 number of coordinating
bodies throughout our global missions,
including establishing emergency operations
centers and MoH committees
