Independent Auditors' Report

The Board of Directors
International Medical Corps:

Report on the Financial Statements

We have audited the accompanying financial statements of International Medical Corps, which comprise the statements of financial position as of June 30, 2020 and 2019, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of International Medical Corps as of June 30, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2020 on our consideration of International Medical Corps' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of International Medical Corps' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering International Medical Corps' internal control over financial reporting and compliance.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2020 and 2019

(1) Nature of Organization

International Medical Corps (the Organization), incorporated under the General Nonprofit Corporation Law of the State of California, is a global, nonpolitical, and nonprofit humanitarian organization. Its mission is to improve the quality of life through health interventions and related activities that build local capacity in underserved communities worldwide. By offering training and healthcare to local populations and medical assistance to people at highest risk, and with the flexibility to respond rapidly to emergency situations, International Medical Corps rehabilitates devastated healthcare systems and helps bring them back to self-reliance.

To fulfill its purpose, International Medical Corps receives grants from individuals, foundations and corporations, including the AbbVie Foundation, Amgen Foundation, Bill & Melinda Gates Foundation, Bloomberg Philanthropies, California Community Foundation, FedEx, JPMorgan Chase Foundation, Medtronic Foundation, Langeloth Foundation, Pfizer, P&G, Riot Games, Sony, and Wells Fargo Foundation.

In addition, the Organization receives funds under federal grants, cooperative agreements, and contracts from the U.S. Agency for International Development (USAID) and its Office of the U.S. Foreign Disaster Assistance (OFDA), the U.S. Department of State and its Bureau of Population, Refugees, and Migration (PRM), and the Department of Health and Human Services (DHHS) and its Centers for Disease Control and Prevention (CDC).

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The Organization's financial statements have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

The Organization classifies revenue, gains, expenses, and losses based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Organization and changes therein are classified and reported as follows:

- *Without donor restrictions* – Net assets that are not subject to donor-imposed stipulations or law and that may be expendable for any purpose in performing the Organization's primary objective.
- *With donor restrictions* – Net assets subject to restrictions imposed by donor or law that may be met either by actions of the Organization or the passage of time. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as support with donor restrictions until the assets are placed in service. Other donor restrictions may be perpetual in nature and must be maintained permanently by the Organization.

As the restrictions are satisfied, net assets are reclassified to net assets without donor restrictions and reported in the accompanying financial statements as net assets released from restrictions.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2020 and 2019

(b) Cash and Cash Equivalents

For the purposes of the statements of cash flows, cash equivalents consist of short-term, highly liquid invested funds with original maturities of less than three months. Cash and cash equivalents as of June 30, 2020 consisted of \$63,849,884 of cash and \$1,272,110 of government money market funds. Cash and cash equivalents as of June 30, 2019 consisted of \$16,062,147 of cash and \$1,175,003 of government money market funds.

For cash held in the United States, the Organization places its cash in high-credit quality institutions and generally limits the amount of credit exposure not to exceed the Federal Deposit Insurance Company (FDIC) insurance coverage limit of \$250,000. The balances in excess of FDIC limits were \$59,554,787 and \$12,441,473 at June 30, 2020 and 2019, respectively. Management believes that the risk with respect to the balances in excess of FDIC limits is minimal.

Additionally, under various grant agreements, the Organization is also required to maintain cash balances inside foreign countries and in the local currencies.

(c) Investments in Equity Securities

Investments in equity securities are carried at fair value. Fair value is determined in accordance with the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement* (ASC Topic 820), as further described in note 12.

Investment transactions are recorded on the trade-date basis. Realized and unrealized gains and losses are recognized in the statements of activities.

(d) Contributions

Contributions, including unconditional promises to give, are recognized as revenue in the period received or pledged at estimated net realizable value.

(e) Measure of Operations

The statement of activities reports all changes in net assets, including changes from operating and nonoperating activities. Operating activities consist of items attributable to the Organization's program services and supporting services. Nonoperating activities are limited to resources that generate return from investments and other activities considered to be of a more unusual or nonrecurring nature.

(f) Grant Revenue Recognition

Grant or contract funds received for which no corresponding expenditure has yet been made are accounted for as refundable advances. Expenditures made in advance of funds received are recorded as grants receivables. Interest earned on federal funds is the property of the federal government and, if earned, is remitted to the federal government on a regular basis. Accordingly, such interest is not reflected as revenue in the accompanying financial statements.

In accordance with ASU 2018-08, *Not-for-Profit Entities (Topic 958): Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*, grants and contracts awarded by federal and other sponsors, which are generally considered nonreciprocal transactions

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2020 and 2019

restricted by sponsors for certain purposes, are recognized as revenue when qualifying expenditures are incurred and conditions under the agreements are met. Contributions are conditional if the agreement includes both a barrier that must be overcome for the recipient to be entitled to the assets transferred and a right of return for the transferred assets or a right of release of the promisor's obligation to transfer assets. Conditional promises to give are not recognized until they become unconditional, that is, when the barriers on which they depend are met. The conditional contributions are related to funding for the establishment of new programs or continuation of current programs with the Organization's overall mission, subject to the terms of each agreement. At June 30, 2020, the Organization had \$81,887,623 of conditional promises to give in the form of measurable performance related or other barriers and right of return that have not been reflected on the accompanying financial statements.

(g) Inventory of Supplies and Commodities

Inventory consists of pharmaceuticals, medical supplies, and other commodities received from outside donors. Inventory is recorded at estimated fair value at the date of contribution and is based on the first-in, first-out method. Inventory sent by the donor directly to the field office is recorded as unrestricted revenue. Inventory sent by the Organization headquarters is released from restriction upon receipt at destination, typically the field office.

(h) Prepaid Expenses

Prepaid expenses consist mainly of the unexpired portion of insurance premiums paid and advance rental payments.

(i) Equipment

Equipment acquired is recorded at cost at the time of purchase or, if contributed, at the fair value at the date of contribution. Depreciation is calculated using the straight-line method over the estimated useful lives as shown below:

Machinery and equipment	3–5 years
Leasehold improvements	3–5 years
Automobiles	3–5 years
Computer hardware and software	3–5 years

Equipment purchased under the specific terms of certain grants remain generally within the control of the grantor and are subject to transfer to other projects or organizations under the terms of the agreement. Such equipment is not capitalized by the Organization, but is expensed against the specific grant in the period purchased.

When assets are retired or sold, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss arising from such disposition is recorded. Expenditures for repairs and maintenance are charged to expense as incurred.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2020 and 2019

(j) Accrued Liabilities

Accrued liabilities consist mainly of unpaid earned payroll and fringe benefits.

(k) Income Taxes

The Organization has received tax-exempt status as a publicly supported organization as provided in the Internal Revenue Code under Section 501(c)(3) and the California Revenue and Taxation Code Section 23701d. However, the Organization remains subject to income taxes on any net income that is derived from a trade or business, regularly carried on and not in furtherance of the purpose for which it was granted exemption. No income tax provision has been recorded as the net income, if any, from any unrelated trade or business, in the opinion of management, is not material to the financial statements taken as a whole.

FASB ASC Subtopic 740, *Income Taxes*, related to accounting for uncertainty in income taxes, prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Standard requires that the entity account for and disclose in the financial statements the impact of a tax position if that position will more likely than not be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Organization has evaluated the financial statement impact of tax positions taken or expected to be taken and determined it has no uncertain tax positions that would require tax assets or liabilities to be recorded in accordance with accounting guidance.

(l) Donated Medical Supplies and Services

The estimated fair value of donated medical supplies and services are reflected as public support in the accompanying financial statements.

Donated services are recognized if the services received (a) create or enhance long-lived assets or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by contribution. The Organization receives contributed medical services provided by doctors and nurses. The estimated fair value of these services has been recorded in the accompanying financial statements.

(m) Functional Expenses

Expenses that can be identified with a specific program or supporting service are charged directly to the related program or supporting service. Expenses that are associated with more than one program or supporting service are allocated based on allocation factors determined by the management, primarily time and effort expended.

(n) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2020 and 2019

(o) Reclassifications

Certain reclassifications have been made to prior year's amounts to conform to the current year's presentation.

(p) Recent Accounting Pronouncements

During FY 2020 the Organization adopted ASU 2018-08, Not-for-Profit Entities (Topic 958): *Clarifying the Scope and Accounting Guidance for Contributions Received and Contributions Made*. The ASU provides a more robust framework for determining whether a transaction should be accounted for as a contribution or as an exchange transaction. The guidance also helps determine whether a contribution is conditional and better distinguishes between a donor-imposed condition from a donor-imposed restriction. The adoption of ASU 2018-08 did not result in significant impact on the consolidated financial statements.

During FY 2020 the Organization adopted ASU 2014-09 – *Revenue from Contracts with Customers (Topic 606)*. This guidance requires an entity to recognize revenue to depict the transfer of promised goods and services to customers in an amount that reflects the consideration to which the Organization expects to be entitled in exchange for those goods and services. The adoption of ASU 2014-09 did not result in a material change to the timing of revenue recognition.

The FASB issued ASU No. 2016-02, *Leases (Topic 842)*. This guidance is designated to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the statement of financial position and disclosing key information about leasing agreements. The ASU is effective for the Organization's year ending June 30, 2022.

(3) Grants Receivable

Grants receivable as of June 30, 2020 and 2019 consist of the following:

	<u>2020</u>	<u>2019</u>
U.S. Agency for International Development	\$ 6,141,942	6,126,734
U.S. Department of State	2,306,329	5,199,726
U.S. Department of Health and Human Services	249,830	155,218
Others	<u>308,801</u>	<u>697,552</u>
	<u>\$ 9,006,902</u>	<u>12,179,230</u>

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2020 and 2019

(4) Equipment, Net

A summary of the Organization's equipment as of June 30 is as follows:

	2020	2019
Machinery, computer hardware, and equipment	\$ 1,859,945	2,478,674
Leasehold improvements	480,325	480,325
Automobiles	13,502	13,502
Computer software	7,744,999	6,984,198
Furniture and fixtures	286,292	286,292
Total	10,385,063	10,242,991
Less accumulated depreciation and amortization	(9,008,882)	(9,090,025)
	\$ 1,376,181	1,152,966

Depreciation and amortization expense totaled \$658,281 and \$1,180,109 for the years ended June 30, 2020 and 2019, respectively.

(5) Employee Benefit Plan

The Organization sponsors a retirement plan called the Employee Benefits Plan of International Medical Corps (the Plan). All employees upon reaching 21 years of age are eligible to participate in the Plan after two years of eligible service. Pursuant to an eligibility requirement amendment, effective January 1, 2006, an employee's service in the nonprofit health and social services field within the three-year period immediately preceding the Organization employment is counted toward the two years of service requirement, provided the 1,000 hours of service requirement with such organization for each year of prior service has been met.

The Organization contributes 10.5% of eligible employee compensation, as defined in the plan document. Employees are immediately fully vested in contributions made on their behalf. Voluntary employee contributions are not permitted under the Plan. Contributions made by the Organization to the Plan totaled \$3,636,878 and \$3,548,998 for the years ended June 30, 2020 and 2019, respectively.

(6) Related-Party Transactions

International Medical Corps is an independent affiliate organization of International Medical Corps UK (IMC UK), a registered charity in England and Wales. IMC UK shares the same charitable objectives and mission to relieve suffering, sickness, and poverty throughout the world by providing medical aid, healthcare training, and healthcare programs. On November 1, 2002, the Organization entered into an Administrative Services Agreement with IMC UK, to assist IMC UK in the achievement of its charitable objectives. The related-party transactions mainly pertain to service fees, recorded as a credit to other expense, cash advances, and other related charges. As of June 30, 2020, and 2019, the Organization had a receivable balance from IMC UK of \$4,537,928 and \$645,240, respectively, recorded as other receivables in the statement of financial position.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2020 and 2019

Amounts contributed to IMC UK during FY 2020 and FY 2019 totaled \$872,281 and \$506,770, respectively.

International Medical Corps is an independent affiliate organization of International Medical Corps Croatia (IMC Croatia), a registered association in the Republic of Croatia. IMC Croatia shares the same charitable objectives and mission to relieve suffering, sickness, and poverty throughout the world by providing medical aid, healthcare training, and healthcare programs. On July 1, 2019, the Organization entered into an Administrative Services Agreement with IMC Croatia to assist IMC Croatia in the achievement of its charitable objectives. The related-party transactions mainly pertain to service fees, recorded as a credit to other expense, cash advances, and other related charges. As of June 30, 2020, the Organization had a payable balance to IMC Croatia of \$16,841,273, recorded as funds on deposit from affiliates in the statement of financial position.

Amounts contributed to IMC Croatia during 2020 and 2019 totaled \$226,131 and \$0, respectively.

(7) Obligations under Operating Leases

The Organization has commitments related to operating leases for office space. All operating leases are noncancelable and expire on various dates in 2021. Future minimum annual lease payments under these leases are as follows:

Year ending June 30:		
2021	\$	664,529

Total rent expense for all operating leases for the years ended June 30, 2020 and 2019 totaled \$4,599,893 and \$3,959,512, respectively.

(8) Commitments and Contingencies

Grants require the fulfillment of certain conditions as set forth in the grant instruments. Federal grant programs are subject to review by the grantor agencies, which could result in requests for reimbursements to grantor agencies for disallowed expenditures. Additionally, the Organization is involved in legal proceedings and claims arising in the normal course of business. The organization has established an accrual of \$1,600,000 as the probable and reasonably estimable amount for contingent liabilities.

While it is not possible to determine the ultimate liability in these matters at this time, in the opinion of management, such matters will not have a material adverse effect on the financial condition of the Organization in excess of the recorded contingent liability.

(9) Concentrations of Risk

Grants and contracts totaling \$99,885,769 and \$26,069,769 were received from the U.S. Agency for International Development and the U.S. Department of State, respectively, for the year ended June 30, 2020, which represents 52% and 14%, respectively, of total public support and revenue. Grants and contracts totaling \$85,532,310 and \$23,892,099 were received from the U.S. Agency for International Development and the U.S. Department of State, respectively, for the year ended June 30, 2019, which represents 65% and 18%, respectively, of total public support and revenue. Should these contribution levels decrease, the Organization may be adversely affected.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2020 and 2019

(10) Net Assets with Donor Restrictions

Net assets totaling \$32,110,170 and \$4,224,658 at June 30, 2020 and 2019 are restricted for relief programs in future periods, respectively.

	<u>2020</u>	<u>2019</u>
Africa	\$ 1,817,585	205,207
Asia	435,344	740,606
Global	6,851,407	250,978
Middle East	445,763	57,854
North/Central America and the Caribbean	21,240,595	2,075,454
South America	377,713	—
Other (for example, emergency response and health)	941,763	894,559
	<u>\$ 32,110,170</u>	<u>4,224,658</u>

Net assets totaling \$650,000 and \$400,000 at June 30, 2020 and 2019 are restricted in perpetuity to be used as revolving loan funds for emergency disaster relief intervention.

(11) Line of Credit

The Organization executed a bank revolving credit agreement (the Agreement) in September 2005, as amended, which allows borrowings of up to \$10,000,000. Borrowings under the Agreement bear interest at the greater of 2.5% or Prime Rate, which was 5% at June 30, 2020. The Agreement currently expires on July 1, 2021. There were no borrowings against the line of credit at June 30, 2020 and 2019.

(12) Investments in Equity Securities

Investments as of June 30, 2020 and 2019 consist of the following:

	<u>Fair value</u>	
	<u>2020</u>	<u>2019</u>
Domestic equity	\$ 3,350,861	2,946,610
Foreign equity	73,785	76,065
	<u>\$ 3,424,646</u>	<u>3,022,675</u>

Fair value is defined as the amount that would be exchanged for an asset or to transfer a liability between market participants in an orderly transaction.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2020 and 2019

A three-tier hierarchy, based upon observable and unobservable inputs, is used for fair value measurements. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available. The three levels of the fair value hierarchy are as follows:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities
- Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted market prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the whole term of the assets or liabilities
- Level 3 Prices or valuations that require inputs that are supported by little or no market activity and that are both significant to the fair value measurement and unobservable

At June 30, 2020 and 2019, all of the Organization's investments in equity securities are classified as Level 1 investments.

(13) Endowment

The Organization's endowment consists of one individual fund established for disaster relief.

The Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The total permanently restricted net assets of \$650,000 and \$400,000 as of June 30, 2020 and 2019, respectively, are donor-restricted endowments to be used as revolving loan funds.

Due to the nature of the endowment and the donor requirement, the endowments are invested in cash and cash equivalents throughout the year. During the years ended June 30, 2020 and 2019, the fair value of the assets associated with individual donor-restricted endowment funds did not fall below the level that the donor or UPMIFA requires the Organization to retain as funds of perpetual duration.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2020 and 2019

(14) Availability and Liquidity

The Organization regularly monitors liquidity required to meet its operating needs and other financial commitments. As part of its liquidity plan, excess cash is invested in short-term investments, primarily in interest bearing accounts and money market funds. The organization has no outstanding debt as of June 30, 2020, and 2019. A \$10,000,000 line of credit is available to bridge temporary funding gaps and other unexpected obligations that may arise. It has not been necessary to use the line of credit in the past two years.

	2020	2019
Financial assets at year end:		
Cash and cash equivalents	\$ 65,121,994	17,237,150
Grants receivable	9,006,902	12,179,230
Other receivables	5,124,419	1,132,740
Investments in equity securities	3,424,646	3,022,675
Total financial assets	82,677,961	33,571,795
Less refundable advances	4,461,763	5,057,972
Less net assets with donor restrictions	32,760,170	4,624,658
Total financial assets available for general expenditures	45,456,028	23,889,165
Line of credit	10,000,000	10,000,000
Total financial assets and other resources available for general expenditures within one year	\$ 55,456,028	33,889,165

(15) Subsequent Events

The Organization has performed an evaluation of subsequent events through December 7, 2020, which is the date the financial statements were available to be issued.
