Independent Auditors' Report

The Board of Directors
International Medical Corps:

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of International Medical Corps (the Organization), which comprise the statement of financial position as of June 30, 2022, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Organization as of June 30, 2022, and the changes in its net assets and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited the Organization's 2021 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated November 1, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2022 on our consideration of the Organization's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control over financial reporting and compliance.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2022

(With comparative information as of and for the year ended June 30, 2021)

(1) Nature of Organization

International Medical Corps (the Organization), incorporated under the General Nonprofit Corporation Law of the State of California, is a global, nonpolitical, and nonprofit humanitarian organization. Its mission is to improve the quality of life through health interventions and related activities that build local capacity in underserved communities worldwide. By offering training and healthcare to local populations and medical assistance to people at highest risk, and with the flexibility to respond rapidly to emergency situations, International Medical Corps rehabilitates devastated healthcare systems and helps bring them back to self-reliance.

To fulfill its purpose, International Medical Corps receives grants from individuals, foundations and corporations, including the AbbVie Foundation, AIG, Amgen Foundation, Bill & Melinda Gates Foundation, Bloomberg Philanthropies, California Community Foundation, FedEx, Gilead, JPMorgan Chase Foundation, Medtronic Foundation, Pfizer, P&G, Riot Games and Sony.

In addition, the Organization receives funds under federal grants, cooperative agreements, and contracts from the U.S. Agency for International Development (USAID) and its Office of the U.S. Foreign Disaster Assistance (OFDA), the U.S. Department of State and its Bureau of Population, Refugees, and Migration (PRM), and the Department of Health and Human Services (DHHS) and its Centers for Disease Control and Prevention (CDC).

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The Organization's financial statements have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

The Organization classifies revenue, gains, expenses, and losses based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Organization and changes therein are classified and reported as follows:

- *Without donor restrictions* – Net assets that are not subject to donor-imposed stipulations or law and that may be expendable for any purpose in performing the Organization's primary objective.
- *With donor restrictions* – Net assets subject to restrictions imposed by donor or law that may be met either by actions of the Organization or the passage of time. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as support with donor restrictions until the assets are placed in service. Other donor restrictions may be perpetual in nature and must be maintained permanently by the Organization.

As the restrictions are satisfied, net assets are reclassified to net assets without donor restrictions and reported in the accompanying financial statements as net assets released from restrictions.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2022

(With comparative information as of and for the year ended June 30, 2021)

(b) Cash and Cash Equivalents

For the purposes of the statement of cash flows, cash equivalents consist of short-term, highly liquid invested funds with original maturities of less than three months. Cash and cash equivalents as of June 30, 2022 consisted of \$99,379,358 of cash and \$4,108,220 of government money market funds. Cash and cash equivalents as of June 30, 2021 consisted of \$55,803,281 of cash and \$1,384,755 of government money market funds.

For cash held in the United States, the Organization places its cash in high-credit quality institutions and generally limits the amount of credit exposure not to exceed the Federal Deposit Insurance Company (FDIC) insurance coverage limit of \$250,000. The balances in excess of FDIC limits were \$94,688,101 and \$46,733,341 at June 30, 2022 and 2021, respectively. Management believes that the risk with respect to the balances in excess of FDIC limits is minimal.

Additionally, under various grant agreements, the Organization is also required to maintain cash balances inside foreign countries and in the local currencies.

(c) Investments in Equity Securities

Investments in equity securities are carried at fair value. Fair value is determined in accordance with the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement* (ASC Topic 820), as further described in note 12.

Investment transactions are recorded on the trade-date basis. Realized and unrealized gains and losses are recognized in the statement of activities.

(d) Contributions

Contributions, including unconditional promises to give, are recognized as revenue in the period received or pledged at estimated net realizable value.

(e) Measure of Operations

The statement of activities reports all changes in net assets, including changes from operating and nonoperating activities. Operating activities consist of items attributable to the Organization's program services and supporting services. Nonoperating activities are limited to resources that generate return from investments and other activities considered to be of a more unusual or nonrecurring nature.

(f) Grant Revenue Recognition

Grant or contract funds received for which no corresponding expenditure has yet been made are accounted for as refundable advances. Expenditures made in advance of funds received are recorded as grants receivables. Interest earned on federal funds is the property of the federal government and, if earned, is remitted to the federal government on a regular basis. Accordingly, such interest is not reflected as revenue in the accompanying financial statements.

In accordance with ASU 2018-08, *Not-for-Profit Entities (Topic 958): Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*, grants and contracts

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2022

(With comparative information as of and for the year ended June 30, 2021)

awarded by federal and other sponsors, which are generally considered nonreciprocal transactions restricted by sponsors for certain purposes, are recognized as revenue when qualifying expenditures are incurred and conditions under the agreements are met. Contributions are conditional if the agreement includes both a barrier that must be overcome for the recipient to be entitled to the assets transferred and a right of return for the transferred assets or a right of release of the promisor's obligation to transfer assets. Conditional promises to give are not recognized until they become unconditional, that is, when the barriers on which they depend are met. The conditional contributions are related to funding for the establishment of new programs or continuation of current programs with the Organization's overall mission, subject to the terms of each agreement. Estimated conditional contributions of \$132,760,678 and \$73,015,122 have been obligated to the Organization from U.S. Government donors for utilization in future years as of June 30, 2022 and 2021, respectively.

As a result of the involvement of multiple parties in delivering services to customers, the Organization applies the framework within ASC 606-10-55-36 to determine which party is the principal vs. agent to the customer.

(g) Inventory of Supplies and Commodities

Inventory consists of pharmaceuticals, medical supplies, and other commodities received from outside donors. Inventory is recorded at estimated fair value at the date of contribution and is based on the first-in, first-out method. Inventory sent by the donor directly to the field office is recorded as unrestricted revenue. Inventory sent by the Organization headquarters is released from restriction upon receipt at destination, typically the field office.

(h) Prepaid Expenses

Prepaid expenses consist mainly of the unexpired portion of insurance premiums paid and advance rental payments.

(i) Equipment

Equipment acquired is recorded at cost at the time of purchase or, if contributed, at the fair value at the date of contribution. Depreciation is calculated using the straight-line method over the estimated useful lives as shown below:

Machinery and equipment	3–5 years
Leasehold improvements	3–5 years
Automobiles	3–5 years
Computer hardware and software	3–5 years

Equipment purchased under the specific terms of certain grants remain generally within the control of the grantor and are subject to transfer to other projects or organizations under the terms of the agreement. Such equipment is not capitalized by the Organization, but is expensed against the specific grant in the period purchased.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2022

(With comparative information as of and for the year ended June 30, 2021)

When assets are retired or sold, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss arising from such disposition is recorded. Expenditures for repairs and maintenance are charged to expense as incurred.

(j) Accrued Liabilities

Accrued liabilities consist mainly of unpaid earned payroll and fringe benefits.

(k) Income Taxes

The Organization has received tax-exempt status as a publicly supported organization as provided in the Internal Revenue Code under Section 501(c)(3) and the California Revenue and Taxation Code Section 23701d. However, the Organization remains subject to income taxes on any net income that is derived from a trade or business, regularly carried on and not in furtherance of the purpose for which it was granted exemption. No income tax provision has been recorded as the net income, if any, from any unrelated trade or business, in the opinion of management, is not material to the financial statements taken as a whole.

FASB ASC Subtopic 740, *Income Taxes*, related to accounting for uncertainty in income taxes, prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Standard requires that the entity account for and disclose in the financial statements the impact of a tax position if that position will more likely than not be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Organization has evaluated the financial statement impact of tax positions taken or expected to be taken and determined it has no uncertain tax positions that would require tax assets or liabilities to be recorded in accordance with accounting guidance.

(l) Donated Medical Supplies and Services

The estimated fair value of donated medical supplies and services are reflected as public support in the accompanying statement of activities.

Donated medical services are recognized if the services received (a) create or enhance long-lived assets or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by contribution. The Organization receives contributed medical services provided by doctors and nurses. The estimated fair value of these services has been recorded in the accompanying statement of activities.

(m) Functional Expenses

Expenses that can be identified with a specific program or supporting service are charged directly to the related program or supporting service. Expenses that are associated with more than one program or supporting service are allocated based on allocation factors determined by the management, primarily time and effort expended.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2022

(With comparative information as of and for the year ended June 30, 2021)

(n) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(o) Reclassifications

Certain reclassifications have been made to prior year's amounts to conform to the current year's presentation.

(p) Comparative Financial Information

The accompanying financial statements include certain prior year summarized information. With respect to the financial statement of functional expenses, information from the prior year is presented in the aggregate, is not presented by function, and the financial statement of activities does not include balances for net assets without donor restrictions and net assets with donor restrictions. Accordingly, such information should be read in conjunction with the Organization's prior year financial statements from which the summarized information was derived.

(q) New Accounting Pronouncements

The Financials Statement Accounting Board (FASB) issued ASU No. 2016-02, *Leases (Topic 842)*. This guidance is designated to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the statement of financial position and disclosing key information about leasing agreements. The ASU is effective for the Organization on July 1, 2022. The Organization is currently evaluating the extent of the anticipated impact of the adoption of this ASU.

(3) Grants Receivable

Grants receivable as of June 30, 2022 and 2021 consist of the following:

	<u>2022</u>	<u>2021</u>
U.S. Agency for International Development	\$ 2,863,737	3,025,314
U.S. Department of State	2,550,495	2,408,027
U.S. Department of Health and Human Services	88,528	316,941
Others	<u>338,676</u>	<u>518,599</u>
	<u>\$ 5,841,436</u>	<u>6,268,881</u>

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

Less accumulated depreciation and amortization	(9,391,218)	(8,790,045)
	\$ 2,276,289	2,305,561

Depreciation and amortization expense totaled \$625,438 and \$349,367 for the years ended June 30, 2022 and 2021, respectively.

(5) Employee Benefit Plan

The organization sponsors a retirement plan under Internal Revenue Code Section 401(a) for employees who meet the eligibility conditions. This is referred to as the Employee Benefits Plan (the Plan).

All employees upon reaching 21 years of age are eligible to participate in the Plan after two years of eligible service. Pursuant to an eligibility requirement amendment, effective January 1, 2006, an employee's service in the nonprofit health and social services field within the three-year period immediately preceding the Organization employment is counted toward the two years of service requirement, provided the 1,000 hours of service requirement with such organization for each year of prior service has been met.

The Organization contributes 10.5% of eligible employee compensation, as defined in the plan document. Employees are immediately fully vested in contributions made on their behalf. Voluntary employee contributions are not permitted under the Plan. Contributions made by the Organization to the Plan totaled \$1,772,869 and \$2,386,061 for the years ended June 30, 2022 and 2021, respectively.

During FY 2021 the Organization established a nonqualified employee benefit plan for certain third-country nationals who are ineligible to participate in the Plan under Internal Revenue Code 401(a). This is referred to as the International Retirement Plan.

The International Retirement Plan design and eligibility requirements are the same as the Employee Benefits Plan. Contributions made by the Organization to the International Retirement Plan totaled \$1,961,919 and \$1,544,424 for the years ended June 30, 2022 and 2021, respectively.

(With comparative information as of and for the year ended June 30, 2021)

(6) Related-Party Transactions

International Medical Corps is an independent affiliate organization of International Medical Corps UK (IMC UK), a registered charity in England and Wales. IMC UK shares the same charitable objectives and mission to relieve suffering, sickness, and poverty throughout the world by providing medical aid, healthcare training, and healthcare programs. On November 1, 2002, the Organization entered into an Administrative Services Agreement with IMC UK, to assist IMC UK in the achievement of its charitable objectives. The related-party transactions mainly pertain to service fees, recorded as a credit to other expense, cash advances, and other related charges. The Organization had a payable balance to IMC UK of \$3,483,188 and \$560,548, recorded as funds on deposit from affiliates in the statement of financial position for the years ended June 30, 2022 and 2021, respectively.

Amounts contributed to IMC UK during FY 2022 and FY 2021 totaled \$2,290,916 and \$954,068, respectively.

International Medical Corps is an independent affiliate organization of International Medical Corps Croatia (IMC Croatia), a registered association in the Republic of Croatia. IMC Croatia shares the same charitable objectives and mission to relieve suffering, sickness, and poverty throughout the world by providing medical aid, healthcare training, and healthcare programs. On July 1, 2019, the Organization entered into an Administrative Services Agreement with IMC Croatia to assist IMC Croatia in the achievement of its charitable objectives. The related-party transactions mainly pertain to service fees, recorded as a credit to other expense, cash advances, and other related charges. The Organization had a receivable balance from IMC Croatia of \$8,891,557 and \$2,826,194, recorded as other receivables in the statement of financial position as of June 30, 2022 and 2021, respectively.

Amounts contributed to IMC Croatia during 2022 and 2021 totaled \$55,219 and \$0, respectively.

(7) Obligations under Operating Leases

The Organization has commitments related to operating leases for office space. All operating leases are noncancelable and expire on various dates through 2026. Future minimum annual lease payments under these leases are as follows:

Year ending June 30:	
2023	\$ 825,670
2024	940,722
2025	371,341
2026	<u>93,404</u>
	<u>\$ 2,231,137</u>

Total rent expense for all operating leases for the years ended June 30, 2022 and 2021 totaled \$3,805,747 and \$4,119,858, respectively.

(With comparative information as of and for the year ended June 30, 2021)

(8) Commitments and Contingencies

Grants require the fulfillment of certain conditions as set forth in the grant instruments. Federal grant programs are subject to review by the grantor agencies, which could result in requests for reimbursements to grantor agencies for disallowed expenditures. Additionally, the Organization is involved in legal proceedings and claims arising in the normal course of business. The Organization has established an accrual of \$1,600,000 as of June 30, 2022 and 2021 as the probable and reasonably estimable amount for contingent liabilities.

While it is not possible to determine the ultimate liability in these matters at this time, in the opinion of management, such matters will not have a material adverse effect on the financial condition of the Organization in excess of the recorded contingent liability.

(9) Concentrations of Risk

Grants and contracts totaling \$107,524,071 and \$14,867,228 were received from the U.S. Agency for International Development and the U.S. Department of State, respectively, for the year ended June 30, 2022, which represents 49% and 7%, respectively, of total public support and revenue. Grants and contracts totaling \$109,055,072 and \$17,502,547 were received from the U.S. Agency for International Development and the U.S. Department of State, respectively, for the year ended June 30, 2021, which represents 62% and 10%, respectively, of total public support and revenue. Should these contribution levels decrease, the Organization may be adversely affected.

(10) Net Assets with Donor Restrictions

Net assets totaling \$67,539,479 and \$21,221,726 at June 30, 2022 and 2021 are restricted for relief programs in future periods, respectively.

	2022	2021
Africa	\$ 3,503,424	2,299,807
Asia	888,139	2,369,564
Europe	51,720,600	—
Global	5,124,178	8,545,527
Middle East	1,284,898	3,112,170
North/Central America and the Caribbean	2,184,041	2,147,538
Other (for example, emergency response and health)	2,834,199	2,747,119
	\$ 67,539,479	21,221,725

Net assets totaling \$750,000 at June 30, 2022 and 2021 are restricted in perpetuity to be used as revolving loan funds for emergency disaster relief intervention.

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2022

(With comparative information as of and for the year ended June 30, 2021)

(11) Line of Credit

The Organization executed a bank revolving credit agreement (the Agreement) in September 2005, as amended, which allows borrowings of up to \$10,000,000, including a \$3,000,000 commercial letter of credit sublimit. Borrowings under the Agreement are based on SOFR (Secured Overnight Financing Rate) rates. The Agreement currently expires on July 1, 2024. There were no borrowings against the line of credit at June 30, 2022 and 2021.

(12) Investments in Equity Securities

Investments as of June 30, 2022 and 2021 consist of the following:

	Fair value	
	2022	2021
Domestic equity	\$ 4,737,359	4,960,616
Foreign equity	91,842	99,303
	<u>\$ 4,829,201</u>	<u>5,059,919</u>

Fair value is defined as the amount that would be exchanged for an asset or to transfer a liability between market participants in an orderly transaction.

A three-tier hierarchy, based upon observable and unobservable inputs, is used for fair value measurements. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available. The three levels of the fair value hierarchy are as follows:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted market prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the whole term of the assets or liabilities.
- Level 3 Prices or valuations that require inputs that are supported by little or no market activity and that are both significant to the fair value measurement and unobservable.

At June 30, 2022 and 2021, all of the Organization's investments in equity securities are classified as Level 1 investments.

Notes to Financial Statements

June 30, 2022

(With comparative information as of and for the year ended June 30, 2021)

(13) Endowment

The Organization's endowment consists of one individual fund established for disaster relief.

The Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The total permanently restricted net assets of \$750,000 as of June 30, 2022 and 2021, respectively, are donor-restricted endowments to be used as revolving loan funds.

Due to the nature of the endowment and the donor requirement, the endowments are invested in cash and cash equivalents throughout the year. During the years ended June 30, 2022 and 2021, the fair value of the assets associated with individual donor-restricted endowment funds did not fall below the level that the donor or UPMIFA requires the Organization to retain as funds of perpetual duration.

(14) Availability and Liquidity

The Organization regularly monitors liquidity required to meet its operating needs and other financial commitments. As part of its liquidity plan, excess cash is invested in short-term investments, primarily in interest bearing accounts and money market funds. The Organization has no outstanding debt as of June 30, 2022 and 2021. A \$10,000,000 line of credit is available to bridge temporary funding gaps and other unexpected obligations that may arise. It has not been necessary to use the line of credit in the past two years.

	2022	2021
Financial assets at year end:		
Cash and cash equivalents	\$ 103,487,578	57,188,036
Grants receivable	5,841,436	6,268,881
Other receivables	14,771,586	5,494,161
Investments in equity securities	4,829,201	5,059,919
Total financial assets	128,929,801	74,010,997
Less refundable advances	3,950,878	6,227,539
Less net assets with donor restrictions	68,289,479	21,971,725

INTERNATIONAL MEDICAL CORPS
(A California Nonprofit Corporation)

Notes to Financial Statements

June 30, 2022

(With comparative information as of and for the year ended June 30, 2021)

	2022	2021
Total financial assets available for general expenditures	\$ 56,689,444	45,811,733
Line of credit	10,000,000	10,000,000
Total financial assets and other resources available for general expenditures within one year	\$ 66,689,444	55,811,733

(15) Program Services

Following a crisis, or in communities in need of health services, the Organization's goal is to meet community needs, strengthen local capacity, and promote resilience and overall wellbeing. The sectors in which we work include the following:

	2022	2021
Building health capacity	\$ 55,574,533	45,055,386
Emergency response and preparedness	68,491,773	79,924,753
Mental health and psychosocial activities	9,814,662	21,232,489
Water, sanitation and nutrition	8,730,526	6,909,224
Women and children's health	6,586,433	9,307,410
	\$ 149,197,927	162,429,262

(16) Subsequent Events

The Organization has performed an evaluation of subsequent events through December 6, 2022, which is the date the financial statements were available to be issued.
